SINGLE-PROPERTY BOUTIQUE HOTEL HOTEL CHELSEA, NEW YORK, NY

- General Ledger, Payables
- Opera Revenue Interface
- MICR Coded Laser Checks

When Fred Miller, CFO of Hotel Chelsea New York City, found out his new property was using Quickbooks, he knew immediately that he wanted to bring in Data Plus. Fred was a former Data Plus user, and successfully convinced Hotel Chelsea's owners to purchase the system. Fred chose to install General Ledger, Payables, an Opera Revenue Interface, and Blank Laser Checks. The implementation was smooth and seamless.

“You folks have really got the installation process down to something smooth and painless. I’m sure it has something to do with a lot of experience and practice, but those won’t do it unless there is a great team.”

Fred Miller, CFO
